## **2. PROBLEMS ENCOUNTERED, ANTICIPATED DELAYS, AND SOLUTIONS**

- None.

## **3. RESULTS OF SAMPLING, TESTS, AND OTHER DATA RECEIVED**

- None.

## **4. SCHEDULE FOR THE NEXT FOUR MONTHS**

Work covered by the ASOC that is currently planned for January, February, March, and April 2014 includes the following:

- January 2014: This was the target date for EPA to complete tasks one through ten on the FS comment themes and process table developed by EPA in February 2013. A new draft themes and process table is under discussion (LWG draft provided on January 10, 2014) with new draft completion dates for identified tasks ranging from January to August 2014.
- January 2014: Target date for start of focused technical FS subgroup meetings.
- January 3, 2014: Redline strike-out comments expected from EPA on Section 5 of the Draft Final RI.
- February 18, 2014: Redline strike-out comments expected from EPA on Section 6 of the Draft Final RI.
- March 24, 2014: Redline strike-out comments expected from EPA on Section 10 of the Draft Final RI.
- March 24, 2014: Redline strike-out comments expected from EPA on Section 11 of the Draft Final RI.

Submittal dates for pending documents currently under preparation by the LWG and scheduled for submittal in upcoming months are listed in Table 1: Status of Active LWG Deliverables—Portland Harbor RI/FS. This table includes pending and recently submitted deliverables for which EPA comments or approvals are required. Table 2: Status of LWG Deliverables—Portland Harbor RI/FS reflects the more complete list of LWG submittals and is equivalent to the former Table 1 provided in previous progress reports.

## **5. DOCUMENTS AND ISSUES AWAITING EPA RESPONSE**

EPA comments or approvals have not been received on a number of documents that have been submitted to EPA as required by the ASOC; these submittals are listed in Tables 1 and 2. The LWG requests that EPA provide document approvals for these submittals to verify that the terms of the ASOC are being met and issues are resolved to maintain progress on the RI/FS. Also, the LWG believes that many of the documents listed as future submittals in Table 2 are no longer needed (see Status/Comments column) and requests that EPA review the list and confirm that these documents are, indeed, not needed.

If you have any questions, please give me a call at (503) 972-5014.

Sincerely,

Jennifer Woronets  
LWG Administrative Project Coordinator
